environment. Clients will be billed for repair or replacement of any photographic equipment that is broken either willfully or accidentally by any guests for any reason, including extreme negligence, willful misuse of camera gear or intoxication.

- **Privacy Exclusions:** CJ Studios reserves the right to use all photos/video in promotion of its services on social media/websites and will exercise discretion and sensitivity in choosing those images. If chosen, this agreement will be reflected above and client will have complete ownership of their photos and videos.

Photos:

- Depending on the season, post production typically takes **3 months** after the event date or final payment has been received, which includes deleting undesirable images and color and lighting correction, performed by our specialist in Lightroom. Most events have an image count of 1000 - 2000 photos, but the total number of images may vary.
- CJ Studios will provide the client with a free, online upload of their images to a private server which can be forwarded to an unlimited number of people. Projects will be marked closed 21 days after the link has been delivered - any issues must be reported within that time frame. Reopening a project may result in a \$250 reopening fee **in addition** to editing charges. It is the client's responsibility to **check all photos** thoroughly immediately upon receipt for any obvious issues or mistakes.
- Photos can be mailed upon request to clients on a USB drive with high-resolution imaging and without watermarks, and can be downloaded on as many computers and devices as needed. Please note that if video is being provided, all photos/video will be sent together on one USB once the final project has been completed. Additional USBs can be purchased at a cost of \$50 per drive. Malfunctioning USBs must be reported within 14 days of delivery and client may be required to return the defective drive to CJ Studios.
- Due to New Jersey law, any physical products or goods delivered within the state require CJ Studios to collect sales tax on the entire price of the job. We will gladly ship any USBs or products to locations outside New Jersey to spare you that expense, which can be significant.

Video:

- It typically takes **7 months** to receive your event video because of the extremely high quality of our product and that time frame may be somewhat longer during peak seasons or other extenuating circumstances. We assure you that your final product will be well worth the wait. Please note that no videos will be placed in our editing queue until all outstanding **balances have been paid in full**.
- Any client preferences, including music and scenes must be made known **in writing**, via email, within 60 days of your event. If no preferences are expressed, our editing team will do what is reasonable and customary considering the religious nature of the event.
- Given the extremely time consuming nature of creating your video, any changes made after the final, edited version has been delivered will be subject to additional fees based on the time required. Changes requested in advance, or due to errors made by CJ Studios, such as misspellings and minor editing oversights) will be made at no cost at our discretion. All other changes to the final product, including personal preferences, will be billed at a rate of \$80 per hour with a three hour minimum.
- All videos will include a 5-8 minute highlight reel and a full length 60-90 minute edited production. Any requests regarding the length of the finished product must be made to CJ Studios, in writing, via email.
- Video will be delivered via digital link, with a USB to be mailed upon requests, as above. All projects will be marked as closed 21 days after delivery by email and any changes requested thereafter will be subject to a \$250 reopening fee in addition to editing charges.
- While we do archive our work, we cannot guarantee that video footage will be available more than six months after final delivery for a variety of technical reasons. Any changes requested after the six month mark has passed may result in a \$500 archival fee, if the footage is still available. To avoid potential issues, we recommend that you purchase the raw video footage of your event (which averages several hours in length) on a hard drive which can be shipped to you for a \$150 fee. Please note that it may take several weeks for your hard drive to ship - be sure to let us know if you need it within a shorter time frame and we will do our best to accommodate you.
- Online photo and video galleries are assured for one year from the date of digital delivery. While the material will likely be available for longer, it is not guaranteed, so we encourage you to download all materials to a secure location.
